<p>Marwo Li waxay rabtaa in inanteedu qaadato dawada antibiyootikada ah maalintii inta ay joogto dugsiga. Waxay wacday dugsiga si ay ula hadasho kalkaalisada dugsiga.</p>	<p>Mrs. Li needs her daughter to keep taking her antibiotics during the day while she is at school. She calls the school to talk to the school nurse.</p>
<p>Haddii ilmahaagu u baahan yahay inuu dawada ku qaato dugsiga, waa inaad la xidhiidhid kalkaalisadda dugsiga. Haddii aanad si fiican ugu hadlin Ingiriisiga, dugsiga ayaa ku siin doona turjubaan, si aad si toos ah ula hadashid kalkaalisada. Waa inaan ilmahaagu marna qaadan wax dawo ah u sii qaadan dugsiga haddii aan kalkaalisadu ka warqabin.</p>	<p>If your child needs to take medicine to school, you must contact the school nurse. If you are not comfortable speaking English, the school will provide an <i>interpreter</i> for you, so that you can talk directly with the nurse.</p> <p>Your child should never take <i>any</i> medicine to school that the nurse does not know about.</p>
<p>Marwo Li waxay ka taxadirtaa inay si sax ah u cabirto qadarka qaadashada ee dawada inanteeda. Sababta oo ah ilmaha oo jidhkoodu ka yar yahay ka dadka waaweyn, caadi ahaan ilmuhu wuxuu u baahan yahay qadar yar oo ah dawada.</p> <p>Si taxadir weyn leh u raac fariimaha ku saabsan sida aad dawada u siin lahayd ilmahaaga. Weydii kalkaalisada inay ku tusto sida dawada loo siiyo ilmaha aad u da'da yar iyo nuunuuga.</p>	<p>Mrs. Li is careful to measure out the correct dosage for her daughter's medicine. Because children are smaller in size than adults, they usually need less of the same medicine.</p> <p>Follow the instructions for giving medicine to your children very carefully. Ask the nurse to show you how to give medicine to very small children and babies.</p>
